

India Ratings Downgrades IL&FS Financial Services to 'IND D'

Sep 18, 2018 | Financial Institution

India Ratings and Research (Ind-Ra) has downgraded IL&FS Financial Services Ltd's (IFIN) Long-Term Issuer Rating to 'IND D' from 'IND C' and Short-Term Issuer Rating to 'IND D' from 'IND A4'. The instrument-wise rating actions are as follows.

Instrument Type	Date of Issuance	Coupon Rate (%)	Maturity Date	Size of Issue (million)	Rating	Rating Action
Non-convertible debentures* (NCDs; Long- term)	-	-	-	INR49,850	IND D	Downgraded
Subordinated debt (Long-term)*	-	-	-	INR11,000	IND D	Downgraded
Bank loans (Long-term)	-	-	-	INR7,587.5	IND D	Downgraded
Short-term debt/commercial paper programme (Short-term)^	-	-	-	INR7,000	IND D	Downgraded

^{*}Details in annexure

The downgrade reflects IFIN's dried up liquidity, which significantly increases the likelihood of default on its debt obligations. The liquidity situation worsened post the inconclusive shareholder meeting on 15 September 2018 where funding support from shareholders was envisaged at IL&FS level. Delays in meeting the debt obligations and tight liquidity situation at the parent level resulted in a rating revision for IL&FS ('IND D'). Additionally, IFIN faces regulatory constraints in accessing the commercial paper market, which further stresses the liquidity situation. The company's ability to reduce its group exposure within the regulatory limits could also face challenges and it may be required to take haircuts on both its group and external exposures. This would aggravate the already high leverage situation.

Key Rating Drivers

Depleted Liquidity Buffers: IFIN's liquidity situation has significantly weakened since March 2018. Contractual debt repayment (principal plus interest) obligations for second half of September 2018 stood at INR15 billion (2HFY19: INR37 billion). The liquidity situation has worsened due to the delayed repayments of the loans extended to group companies, which is 29% of the total credit exposure at FYE18. Furthermore, the ability of parent to support IFIN's payment obligations is extremely low at present. As IL&FS' funding infusion from its shareholders remained inconclusive, the expected funnelling of funding at IFIN also failed to materialise.

Regulatory Overhang to Reduce Group Exposure: IFIN's exposure to group companies of over INR50 billion as of March 2018 needs to be significantly brought down by March 2019. However, this is subject to the planned injection of equity by IL&FS' shareholders as well as the timely divestment of assets at the operating companies of the group. At present, there is a limited visibility on these developments.

[^]Unutilised

Highly Challenging Deleveraging Plans: IFIN's financial leverage is higher than its peers', which the company plans to address through a combination of paring group companies' exposure and equity infusions. The execution of this plan is now difficult as it involves timely injections of equity and liquidity from its shareholders.

For previous rating rationale, please click here.

Rating Sensitivities

Timely debt servicing for at least three consecutive months could result in a positive rating action.

Company Profile

IFIN is a systemically important non-banking finance company that provides credit and other services such as debt syndication and corporate advisory.

FINANCIAL SUMMARY
